

# Wax Filler Sticks

***Repairs cracks, splits and small to medium sized holes.***

## Purpose

Liberon Wax Filler Sticks are available in a wide range of wood colours. The advantages of an application without a heat source and no shrinkage make them ideal for use on finished furniture and other articles.

## Performance

- Blended wax filler for repairing finished furniture
- Fills small to medium holes, cracks and scratches without having to strip

the finish

- All colours are intermixable
- Easy to use
- Quick drying
- Wide range of colours available

## How to Use

### Application

Scrape off some shavings from the wax, enough to fill the hole, and soften with your fingers. Press into the crack or hole using a Liberon Plastic Scraper or other suitable tool. Level down with the scraper and buff off the excess with a cloth.

### Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.
