

Water Based Concentrate Dyes

Mix with water or Palette Wood Dyes to create new, individual colours.

Purpose

Liberon Water Based Concentrate Dyes can be mixed with water or Liberon Palette Wood Dyes to create individual colours for colouring wood. They are light and fade resistant and come in a range of eight colours.

Performance

- Can be added to water based dyes, varnishes and paints to create individual colours
- Fade and light resistant
- All colours are intermixable
- Available in a wide range of colours
- Acrylic formula

How to Use

Application

To create your own wood dye add water to the recommend concentration of 10% dye to 90% water. To colour water based emulsion paints, varnishes or acrylic wood dyes add sufficient dye to achieve the desired colour.

Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.

Colours: Black, Blue, Brown, Green, Orange, Red, White, Yellow

Pack Size: 15ml
