

# Black Bison Paste Wax

***Reveals the beauty of your furniture. Highly lustrous and hard wearing.***

## Purpose

Liberon Black Bison Fine Paste Wax is ideal for nourishing and protecting all types of wood, including lacquers and French polishes. Black Bison is well known for its quality and distinctive, pleasant smell. It is traditionally used on antiques but is also suitable for use on modern furniture and will enhance the natural beauty of wood whilst protecting it against dryness.

## Performance

- Gives good resistance to finger and water marks
- Ideal for small surfaces
- Feeds, polishes and helps prevent wood drying out
- Highly lustrous and hard wearing
- Helps cover marks and scratches
- EN71 Part 3 Approved - Safe for toys
- Endorsed by the Guild of Master Craftsmen
- Silicone Free
- Usage : Interior

## How to Use

### Preparation

Remove old waxes and dirt with Liberon Wax and Polish Remover if necessary.

### Application

Apply Black Bison Fine Paste Wax sparingly with a cloth on a delicate / French polished surface or with ultra fine steel wool (Liberon grade 0000) when a deeper penetration is required. Allow to dry for 20 minutes, or until touch dry, and then buff with a clean cotton cloth or furniture brush. Repeat the operation on new or very dry wood as it may require two or more coats. For a better finish buff with a Liberon Furniture Brush once the last coat has dried.

### Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.

### Cleaning and maintenance

Wipe over with a cloth or duster and re-wax as required when the surface looks dull and tired. Do not wash with water.
