

Liquid Furniture Wax Neutral

Nourishes and protects all types of wooden furniture and interior woodwork

Purpose

Liberon Liquid Furniture Wax is ideal for nourishing and protecting all types of wooden furniture and interior woodwork. It is particularly suitable for large surfaces such as panelling, doors and staircases. Liberon Liquid Furniture Wax will enhance the natural beauty of new wood, whilst also protecting it against dryness and everyday usage.

Performance

- Feeds, polishes and protects wooden furniture
- Highly lustrous and hard wearing
- Helps cover marks and scratches
- EN71 Part 3 Approved - Safe for toys
- Approved by the Guild of Master Craftsmen
- Silicone Free

How to Use

Preparation

Remove old waxes and dirt with Liberon Wax and Polish Remover if necessary. Ensure the surface is clean, dry and free from dust.

Application

Shake well before use. Apply Liquid Furniture Wax sparingly with a cloth, brush or spray gun. Allow to become touch dry in approximately 30 minutes, then buff with a clean cotton cloth, Liberon Wax Polishing Brush or Liberon Drill Brush.

Repeat the operation on new or very dry wood as it may require two or more coats.

For an improved finish apply thin coats of wax and build-up to the desired level of sheen, buffing between coats.

Important: Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.

Cleaning and maintenance

Wipe over with a cloth or duster and re-wax as required, when the surface looks dull and tired. Do not wash with water.

Precautions

Not suitable for high water areas such as kitchens and bathrooms. We recommend the use of Liberon oils or varnishes in these areas.

Coverage: 10-12m²

Pack Size: 500ml

Drying Time: Approx 30 minutes
