

Carnauba Wax

Purpose

Liberon Carnauba Wax is a very hard natural wax that has a variety of uses, including adding to Liberon Purified Beeswax for making furniture polish which gives a high gloss sheen. It can also be used for making wood turning sticks.

Performance

- Hard natural vegetable wax
- Mix with other waxes to produce furniture polish
- Melt down and pour into blocks for use on lathe work

How to Use

Application

To make wood turning sticks melt the Carnauba wax, pour into moulds and allow to cool before use.

Precautions

Carnauba Wax melts only at very high temperatures.

Pack Size: 250g, 1kg
