

Purified Beeswax

Purpose

Liberon Purified Beeswax is 100 % pure beeswax for making furniture polish and lubricating draw runners. It can be dissolved in pure turpentine.

Performance

- Ideal for making your own Beeswax polish
- Lubricates draw runners
- Traditional wood filler

How to Use

Application

To make wax polish melt 100 g of Purified Beeswax in a container. Remove from heat and stir in 100 ml of Liberon Pure Turpentine. Pour the liquid into a suitable sealable container (not plastic), seal and allow to cool before use. For a harder polish added 10 g of Liberon Carnauba Wax.

Important

Always mix products first in small quantities and test on an inconspicuous area to check colour, compatibility and end result.

Pack Size: 15 x 25g, 200g, 1kg
