

Brass and Copper Cleaner

Cleans heavily tarnished items.

Purpose

Liberon Brass and Copper Cleaner is a mild-acid based cleaner that removes heavy tarnish from un-lacquered copper, brass and bronze. It helps to de-grease as it cleans and can be buffed to a bright shine.

Performance

- Cleans heavily tarnished (black) surfaces quickly and easily
- Suitable for use on brass, copper and bronze
- Helps to de-grease as it cleans
- Buffs to a bright shine
- Specially formulated mild-acid solution
- Usage : Interior

How to Use

Application

Shake well. Rub item to be cleaned with a soft cloth soaked in Brass and Copper Cleaner, removing all traces of tarnishing. For very stubborn stains use with Liberon Ultra Fine Steel Wool (0000). Rinse well and dry with a clean soft cloth.

Maintain with Liberon Brass and Copper Polish. To retard tarnishing rinse with warm soapy water after polishing, then wax the cleaned and dry surface with Liberon Black Bison Paste Wax (clear) to form a protective coat.

Brass and Copper Cleaner may also be used on pewter to maintain a silver effect. Allow to dry before buffing with a clean soft cloth.

Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result. Extra care must be taken when using on brass or copper plating.

Pack Size: 125ml, 500ml

Drying Time: Minimum 24 hours
