

Silver Polish

Cleans, polishes and reduces tarnishing of silverware.

Purpose

Liberon Silver Polish is a water based polish that cleans, polishes and reduces tarnishing of silver in one application.

Performance

- Cleans light to medium tarnishing from silver
- Produces a deep polished shine on the metal
- Suitable for new and old silver
- Non- abrasive
- Water based formula
- Low odour
- Usage : Interior

How to Use

Application

Shake well. Apply generously with a soft cloth, rubbing hard. Buff off after a few minutes with a clean soft cloth. Table silverware should be washed in warm soapy water before being used.

To retard tarnishing rinse with warm soapy water after polishing.

Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result. Extra care must be taken when using on silver plated items as thin plating may be removed.

Pack Size: 125ml

Drying Time: Minimum 24 hours
