

# Wood Floor Dye

***Ideal for colouring bare wooden floors before varnishing.***

## Purpose

Liberon Palette Wood Dyes are ideal for colouring bare wooden floors before varnishing and is suitable for both soft and hardwoods. Wood Floor Dye gives a professional quality and uniform result while leaving the natural beauty of the grain visible. Being EN71 Part 3 Approved Liberon Wood Floor Dye is perfect for use in the family home.

## Performance

- Ideal for colouring bare wooden floors before varnishing, oiling or waxing
- Water based formula
- Suitable for use on hard and soft woods
- Leaves the grain visible
- EN 71 Part 3 Approved - safe for toys
- Endorsed by the Guild of Master Craftsmen
- Can be mixed with Liberon Natural Finish Varnishes
- Usage : Interior

## How to Use

### Preparation

Ensure the surface is thoroughly sanded to remove any existing finish as this may prevent the dye from penetrating evenly.

### Application

Shake well before use. If more than one tin of dye is required to complete the work, mix the tins of dye together to ensure uniform colour. Apply the Liberon Wood Floor Dye to the bare timber reasonably quickly and along the grain using a foam applicator or brush. Wipe off excess with a clean dry cotton cloth before it dries to even out the colour. To avoid overlap marks work a small section at a time. A second coat may be applied after 2 hours if a stronger colour is required. More than two coats of dye may affect the final finish. Liberon Wood Floor Dye may be added to Liberon Natural Finish Floor Varnish and Hardwearing Floor Gel to create a range of coloured, water based varnishes. It is also compatible for use under Liberon Floor Sealer, Floor Wax, Floor Oil and High Resistance Floor Varnish.

### Important

Always test product on a spare or inconspicuous area for compatibility and end colour result. The colour bar may not be a true representation of the actual colour.

### Precautions

- Do not mix a water based dye with a spirit based dye.
- Wear gloves to avoid skin staining.
- Different types of wood produce different results.
- Caution must be taken when using a water based varnish over Liberon Wood Floor Dye. Keep brush strokes to a minimum as over brushing may lift out the colour. Do not allow to freeze.

Colours: Victorian Mahogany, Medium Oak, Dark Oak, Antique Pine.

Coverage: 250ml = 2-4m<sup>2</sup>

Pack Size: 250ml
