# Product catalogue

Liberate the spirit of your home

Born at the beginning of the 20th Century in the heart of artisan Paris, Liberon has built its reputation on the high quality restoration and finishing of wooden furniture and antiques. Our expertise in fine finishes has helped us expand our products into new areas and new materials with the introduction of flooring, garden and patio ranges.

Over time the traditional recipes, derived from natural ingredients, have continually evolved to meet the technical, performance and aesthetic requirements of today's consumers. A greater focus on product application, design and technical advice has also been followed to complete the Liberon product offering.

*Revealing beauty, Liberon products enhance surfaces and enrich the spirit of the home.*

## Innovation and the environment

With environmental issues becoming increasingly important in today's society we make every effort possible to minimise the environmental impact of our products and processes. As a result of our continuous Research and Development programme Liberon Natural Finish Floor Varnish is the first water based varnish on the UK market to be certified by AFNOR to the requirements of the European Eco-labelling scheme.

European Eco-Label	
	<p>Awarded to goods or services which meet the environmental requirements of the EU eco-labelling scheme.</p> <p>Licence registration number: FR/7/8</p>
	<ul style="list-style-type: none"> <li>• Good performance for indoor use</li> <li>• Hazardous substances restricted</li> <li>• Low solvent content</li> </ul>

Our environmental sensitivity extends throughout our product development and all our products meet the European environmental legislation regarding VOC content introduced in January 2007.

## Quality, reliability and safety

EN71 Part 3 Approved  
– Safe for toys

Guild of  
Master Craftsmen

In addition to environmental concerns premium performance is fundamental to Liberon's values as the brand has become synonymous with high quality. For this reason many of our products are EN71 Part 3 Approved – Safe for toys, and/or approved by the Guild of Master Craftsmen.
